## Iphone beach wallpaper hd

The iPhone X is official, and it marks the most radical redesign the iPhone has seen since its original release 10 years ago. With its pixel-dense display with a resolution of 1125 x 2436 and almost bezel-less design, the iPhone X begs for some special decorations (not to mention that this year marks the 10th anniversary of the iPhone, which in itself is a special occasion). Oh yes, and this time Apple has gone for an OLED panel, which means that all the cool dark wallpapers we've prepared will look extra-cute on the iPhone X! That said, let's take a look at what we have in store for you this week. Aside from the predominantly dark backgrounds that no doubt look cute on x, we also have a bunch of retro themed ones, as well as some old favorites from previous versions of iOS. The latter, of course, has been reworked and stirred up to look good on the new high-resolution display. Enjoy! Given the large resolutions of these images, we've included scaled-down preview versions in the gallery below. To put your hands on your images at full size, follow this Google Drive link. Disclaimer: Some of the images shown in this article were created by PhoneArena. As such, 3rd parties are prohibited from using these images for commercial purposes and/or to publish them outside PhoneArena.com. Subscribe to our newsletter! So you just picked up your iPhone X and you're super excited to see that big, beautiful screen, but it hits you: What WALLPAPER will show off my iPHONE X's true elegance and sophistication and screen-Y-NESS?! 1. 🌊 I leaaaaaving on a jet 🌊 Have you found by far the most perfect wallpaper for your iPhone X? Maybe you found a treasure trove of wallpaper options that really make your home button-less screen POP? Let us know what your top iPhone X wallpaper picks are in the comments below and we'll be sure to check them out! The enterprising folks from iFixit are not only blessing us with some of the most detailed teardowns of our favorite phones, so we can gawk at what's inside (you know you want it), but are also giving us the chance to experience dissection feeling throughout the day by providing custom wallpapers. Next in line for the pathoanatomical reading is the newest iPhone X, and you can set the above photos as your daily driver of a wallpaper, and feel like you're looking under the hood all the time. Just download images with your browser (be patient, as these are full-res images), and go to Settings&gt;Choose a new wallpaper on your iPhone X, then select one of these from the list of recent downloads. It's like you have a transparent glass phone, and there's even an X-ray version of the internal, svelte. Subscribe to our newsletter! Source: iMore On the outside, most iPhone and iPad look and feel the same. But, as they say, what matters is on the inside. Sure, you can put a case your iPhone, but the faster way to make it your own is by customizing your home home with a beautiful wallpaper. You can choose to add a standard wallpaper made by Apple or use your own Pictures Pictures app. Here's how to change your wallpaper on iPhone and iPad. First, let's learn how to change your wallpaper on iPhone or iPad and use Apple's stock library. There are many options for you to choose from. Plus, some wallpapers change if you use Dark Mode. Start Settings on your iPhone or iPad. Scroll down and tap Background Picture. Tap Choose a new background image. Source: iMore Tap on what type of wallpaper you want to use. Dynamic: This is an image from Apple's stock photo library with effects that fade into view and react to the device's movement. Still Images: This is a still image from Apple's stock photo library. Live: These wallpapers make a little animation when you tap them and hold your finger. Photo Library: A picture that comes from your personal photo library. Select an image to enter preview mode. While in Preview mode, you can choose to let perspective zoom on or off. If you leave it on, you'll see your wallpaper move when you tilt your iPhone. Tap Set. Source: iMore Choose if you want wallpaper for your Lock screen, Home screen, or Both. How to change the wallpaper on your iPhone or iPad from the Photos app Launch photos on your iPhone or iPad. Find a photo that you want to use as your wallpaper and select it. Tap the Share button in the lower-left corner. Source: iMore Scroll down in Share Sheet and select the Use as Background option. Move and Scale your image, so it fits your screen the way you want it. Or choose to leave Perspective Zoom on. Tap Set. Then choose whether you want it for your Lock Screen, Home Screen, or Both. Source: iMore Questions? If you have any problems setting up your device's wallpaper, let us know in the comments below! October 2020. Updated for iOS 14. Want to add some personality to your device? Creating a wallpaper can be a fun and creative way to show off your style. This article will tell you how you can start from square one and create a background for your device that is unique to you. Whether you consider yourself artistic or not, it's always great when you can have complete creative freedom. Canva is a free app with paid upgrades that allows you to create any size design and use its elements or upload your own. So, this process can be a fun way to show off your personality. Before you start — downloading the app Canva is a great app that allows you to create your own wallpaper from scratch, use a template or edit templates that are already created. You can also use the templates they have and edit them anyway you want, but this app is a great tool to start with an empty slate. Here's how to start creating your masterpiece on your iPhone or iPad. Tap the search icon to open the App Store Search for Canva. Or download the Canva app right away. Tap open the app in the App Create an account or sign in with Facebook or Google. You should now be able to where you can create different designs by using their templates or using custom dimensions. How to find the dimensions of your Apple product, Canva, requires you to specify the pixel ratio of your Apple product. This is information that you could find on Apple's website when you look at your specific product. But here's a quick reference if you're like 99 percent of others and don't know this number from the top of your head. iPhone: iPhone SE : 1136 x 640-pixel resolution iPhone 6s/7/8 : 1334 x 750-pixel resolution iPhone 6s Plus/7 Plus/8 Plus: 1920 x 1080 pixel resolution iPhone X and XS: 2436 x 1125-pixel resolution iPhone XR: 1792 x 828-pixel resolution iPhone XS Max: 2688 x 1242-pixel resolution iPad: iPad mini (all models), 5th generation and iPad air (1st gen and 2): 2048 x 1536-pixel resolution iPad (9.7in): 2048 x 1536-pixel resolution iPad Pro (10.5in) and iPad Air: 2224 x 1668-pixel resolution iPad Pro (11in): 2388 x 1668-pixel resolution iPad Pro (12.9in): 2732 x 2048-pixel resolution This allows you to have the perfect size wallpaper for your Apple product. No more cropping or tweaking your photos. How to size your design for Canva Once you've downloaded the app and found the size of your design, it's time to put those dimensions in and see your blank canvas. Once you've downloaded the app and found the size of your design, it's time to put those dimensions in and see your blank canvas. On your iPhone or iPad, it's the same process to put this information in. Select custom dimensions. Use the pixel size of your Apple product from the chart above. Invert the two numbers so the width is the smaller number and the height is larger for a portrait wallpaper. Click Create. At this point, you will see a beautiful blank canvas for your creative mind to do its magic. Create designThis is the fun part. You can add templates, photos, text, background, etc. Make this as simple or complex as you want. Creating a wallpaper with this app is kind of like arts and crafts projects for the tech world. iPhone: Create your design. To add elements, select the plus (+) icon in the lower-right corner. Upon completion of the design, click on the download icon in the upper right corner. iPad: Create your design. To add elements, select the options on the left side. Upon completion of the design, click on the download icon in the upper right corner. You're almost there! After you are satisfied with your design, and you have downloaded your creation, it will appear in your photos. Set the wallpaper Congratulations! You have created your design and it is now time to set it as your wallpaper, lock screen or both. Here's how you can finish the process on your iPhone or iPad. Go to your Settings. Tap Background. Tap Choose a new wallpaper, tap All Photos. Choose your own design. Set it as \*\*Lock Screen, Home Screen, or both. \*\* At this point you should have an amazing wallpaper that you created. There are other apps out there that make you create your own design, but none of them compare to Canva. It's free, easy to use and available on almost every platform. Platform.
